STATE SENATOR GRAY EVANS HONORED BY LOUISIANA PRIMARY CARE ASSOCIATION FOR EFFORTS IN PROMOTING QUALITY ACCESS TO HEALTH CARE

District 5 State Senator Cheryl Gray Evans (D-New Orleans) will be honored by the Louisiana Primary Care Association at their 26th Annual Continuing Education Conference later this month. The statement from the organization:

"This year, on June 23, 2009, Louisiana Primare Care Association (LPCA) will host its 26th Annual Continuing Education Conference at the L'Auberge du Lac Casino and Resort. LPCA is the trade association for the federally qualified health centers (FQHCs) in our State. This statewide event will provide current information on the health care industry through innovative and educational workshops and plenary sessions with dynamic and notable speakers.

As a staunch supporter of LPCA and the state's FQHCs, we would like to commend you for your efforts to promote quality access to health care for all of Louisiana's citizens. Your commitment and dedication to the statewide efforts of eliminating health disparities and addressing universal health concerns have led the LPCA Board of Directors to unanimously select you as this year's recipient of the Senator Diana Bajoie Award. "
